

**Range Ponds
Association**

RPA Mission Statement

The Range Ponds Association is dedicated to protecting the water quality of Lower, Middle and Upper Range Ponds by consistent water quality monitoring and by providing education and technical assistance to residents and municipal officials.

Our Annual Meeting is the last Sunday in July.

**Come to our meeting, join our board and make a difference.
Board Members serve a three year term.**

facebook - **Range Ponds Maine**

The Shoreland Zone is the land area within 250 feet from the normal high water mark. Contact code enforcement prior to any tree, earth or construction work done in the Shoreland Zone. These codes were enacted to protect the waterways of Maine.

Your lake association is here to assist you while helping protect our lakes.

If you think you see an invasive plant in one of the ponds:

Mark where you saw it with something noticeable – a buoy, float noodle, milk bottle. If you can, get a sample in a baggie with water. Email us at one of the emails below. We do have members that have information on how to identify an invasive plant.

The RPA does not use envelopes for contribution/dues to keep our administrative costs low. We prefer to use the funds for lake expenses. We hope you choose to contribute using this form. Or you can donate using paypal on our website or facebook – Finally!!
